To Whom It Concerns,

On September 1, 2017, Madison County will be hosting an informational assembly dealing with the use of opioids and the dangers that go along with it. Judge Costello has created an awareness program that will be used as a preventative tool by bringing awareness to the use of opioids and the consequences that go along with it. This provides us an excellent opportunity in advising students against the use of drugs and the terrible impacts they will have on their lives.

If you do not want your student to participate in this informational assembly, you will need to complete the form below. After completing the form below, please detach it and have your student turn it into the office. This will exclude your student from participating in the informational assembly. The completed form will be due no later than August 31, 2017.

In Education,

Michael L. Bute
